SUMMARY

I am a driven Electrical Engineer with expertise in circuit design and systems analysis. I am passionate about applying my technical skills to achieve engineering excellence. With hands-on experience in various projects, I have developed my problem-solving capabilities and demonstrated my ability to handle team dynamics effectively. I am eager to contribute to innovative engineering solutions.

EDUCATION

10th Grade

New Sunflower English High School

04/2019 - 04/2020 Chhindwara

12th Grade

Excellence High School

04/2020 - 04/2022 Chhindwara

B.Tech

RGPV

08/2020 - 06/2024 Bhopāl, India

CERTIFICATION

NPTEL certificate

NPTEL certificate

Power Distribution Training Certificate

Power Distribution Training Center, PDTC MPMKVCL BHOPAL

Smart Grid Certificate

NPTEL course on Smart Grid

West to Energy Conversion Certificate

NPTEL course on West to Energy conversion

Innovation Ambassador (IA) Training Certificate

Training from Innovation Cell & AICTE

VOLUNTEERING

Member

IEEE

12/2024 - 12/2025

Institute of Electrical and Electronic Engineers | Professional organisation company

INDUSTRIAL VISIT

Sagar Manufacturing private limited, Bhopal Madhya Pradesh

Power Distribution Training Center PDTC Transformers sector

MSME Bhopal

Ministry of micro , small and Medium Enterprises government of India

STRENGTHS

Team Handling

Ability to handle team dynamics while working on projects.

Hard-working

Solid work ethic with a commitment to diligent effort.

Quick Learner

Quick adaptation to new tasks and environments.

LANGUAGES

Hindi

Native

English

Proficient

Marathi

Advanced

SKILLS

C++

Python

Embedded system

IoT

MATLAB

PROJECTS

Electrical Engineering Projects

Various engineering projects focusing on electrical systems and safety.

Team role :- LEADER

- Developed a transmission line project demonstrating different types of faults such as line-to-line fault, line-to-ground fault, and line-to-line fault.
- Created a house wiring panel showcasing the electrical distribution throughout a home.
- Implemented a smart women's safety device that allows women to send an emergency call or SMS by pressing a safety switch.

TRAINING / WORKSHOP

Led making workshop 4-5 days

Micro- python 15 days
